
Session Title: Advanced Materials for Nanophotonics and Biophotonics V
Date & Time: **November 3, 2016 (Thur) / 9:00~10:00**
Room: **B (Room 102)**

*Session Chair: Katarzyna Matczyszyn
(Advanced Materials Engineering and Modelling Group, Poland)*

3B1-1

9:00~9:30

[Keynote] Nonlinear Magneto-Optics in (Semi)Conducting π -Conjugated Polymers and Macrocycles

André Persoons^{1,2}, Guy Koeckelberghs¹, Palash Gangopadhyay², Nasser Peyghambarian², and Nicolas Delbosc³

¹University of Leuven, Belgium, ²University of Arizona, USA, ³University of Mons, Belgium

3B1-2

9:30~9:55

[Invited] Design of New NLO Materials *via* the Control of Noncovalent Interactions

Lada Puntus¹, Kyrill Suponitsky¹, Ivan Fedyanin¹, Konstantin Lyssenko¹, Ana-Maria Manea², Ileana Rau², and Francois Kajzar²

¹RAS, Russia, ²University POLITEHNICA of Bucharest, Romania
