
Session Title: Polymers and Hybrid Materials for Plastic Electronics and Photonics I
Date & Time: **November 1, 2016 (Tue) / 10:30~12:00**
Room: **C (Room 103)**

Session Chair: Jacek Ulanski (Lodz University of Technology, Poland)

1C1-1

10:30~10:55

[Invited] Design Strategy for New Organic Semiconductors

Yun-Hi Kim¹ and Soon-Ki Kwon²

¹Gyeongsang National University, Korea, ²Gyeongsang National University, Korea

1C1-2

10:55~11:25

[Keynote] Methods for Tailoring the Electronic Properties of Polymers and Interfaces for Organic Electronics

Bernard Kippelen

Georgia Institute of Technology, USA.

1C1-3

11:25~11:50

[Invited] Effects of Spin States in Perovskite Solar Cells and Light-Emitting Devices

Bin Hu

University of Tennessee, USA
